Subject: ISO Certification

Dear Sirs,

as per your request we inform you that our factory is not ISO certified.

We developed an internal, documented system in order to manage and control all our activities.

We have improved a self-certified system, based on Quality Assurance Systems and through it, we can warrant:

- traceability for all industrial phases;
- people training;
- registration of all formulations, productions, and every connected procedures.

Furthermore, using the GMP "audit check list" (reg. 2023/2006/EU) we periodically carry out internal audits, in order to check and measure the efficacy of our system.

Best Regards

COLORGRAF S.p.A.
